

CONFIDENTIAL: Enterprise Security Incident Response Plan

Severity Levels: Incidents are classified into three severity levels: Sev-1 (Critical Breach), Sev-2 (Partial Degradation), and Sev-3 (Low Threat).

Containment Protocol: For Sev-1 incidents, the Security Operations Center (SOC) must isolate affected networks within 15 minutes of detection.

Communication Plan: External notifications for data breaches must be made within 72 hours to comply with international regulations.

Post-Mortem: A detailed Root Cause Analysis (RCA) must be published within 5 business days after any Sev-1 or Sev-2 incident is resolved.
